Seat Solid oak
(Leather seat pad optional)

Legs Powder coated steel

Technical features

Seat

Leina bar chair fluid seat form seat is fully made out of CNC milled solid wood - oak. The one-piece seat has integrated low backrest to support the lumbar area. Leather seat pads for more comfortable seating are optional and available to order. For further information please see Available materials and colors page in this document.

Legs

The bar chair leg structure is made out of powder-coated (fine structure) steel rods and tubes. The seat is connected to the base through metal seat spacers, while plastic gliders are attached to the chair legs and are suitable for most flooring options.

Finish

The wooden seat is available in two plant-based Hardwax oil finishes (colors), which retains wood natural state, as a white or natural oil.

Cleaning

Please see Product or Material page on our website.

Notes to consider

The height of Leina bar chair - regular (73 cm seat height) fits Leina bar table and standard bar heights. Lower chair option, Leina bar chair - low (63 cm seat height), is more suitable for lunch counters.

The dimensions shown in this document are indicative, they may vary due to the natural properties of wood, season, or manufacturing processes, for these reasons deviations from the specified size may occur, usually no more than 1 cm.

Natural variations in wood color and surface may occur. Regular maintenance will ensure the wood preserves its authentic beauty and can last for generations.

Standards and certifications

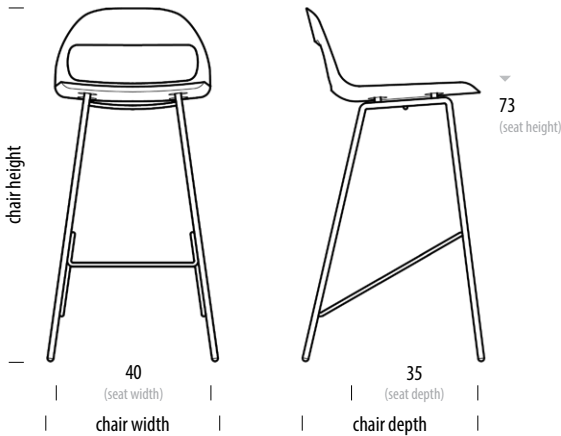

Leina bar chair fulfils requirements of standard BAS EN 16139:2014 + BAS EN 16139/Cor1:2014 Furniture - Strength, durability and safety - Requirement for non-domestic seating.
