HAY Living

HAY was founded with the ambition to create contemporary furniture and accessories that serve modern lifestyles using quality craftsmanship and industrial production. At HAY, we work to understand new ways of living. We think about what modern needs in the home and workplace are – then create products to meet them. We use good ideas, technical skill and the best materials in all we do. We combine the structural character of architecture with the dynamics of fashion in durable, quality products together with some of the world’s most talented, curious and spirited designers.
Using expert craftsmanship and handpicked materials, HAY chairs and stools are comfortable, flexible and lasting designs. Created for dining rooms, offices, sitting rooms and public spaces, the collections span innovative, iconic designs from upcoming designers to reissues of enduring classics.

Superior comfort engineering, durability and flexibility form the cornerstone of HAY’s sofa designs. The extensive range includes two- and three-seaters, modular sofas and flat-packed sofas in floor level and elevated designs. Precise attention to construction and carefully selected fabrics ensure our sofas are built to withstand daily use in homes, corporate environments and public spaces for generations to come.
HAY’s wide selection of versatile tables and side tables offers functional and aesthetic solutions for your home or work environment. The customisable range includes dining tables, meeting tables, coffee tables and desks in a variety of materials from wood to steel. Different sizes, colours and expressions enable you to complement or contrast the tables with other HAY designs.
