

HAY

A modern dining table and chairs set. The table is a light gray color with a black metal frame. On the table, there is a stack of books, a white box, a potted plant with large green leaves, and a black rectangular object. The chairs are made of light-colored wood with black metal frames. The background is a concrete wall and floor.

LIVING

Living

HAY was founded with the ambition to create contemporary furniture and accessories that serve modern lifestyles using quality craftsmanship and industrial production. At HAY, we work to understand new ways of living. We think about what modern needs in the home and workplace are – then create products to meet them. We use good ideas, technical skill and the best materials in all we do. We combine the structural character of architecture with the dynamics of fashion in durable, quality products together with some of the world's most talented, curious and spirited designers.

Mette and Rolf Hay

Soft Edge

Soft Edge

Soft Edge by Iskos-Berlin is a deeply resolved piece of design, made possible by a harmonious intersection between designer, technology and manufacturer. Created in the knowledge that there is no ultimate sitting posture, but rather that our natural state is one of constant dynamic movement creating a new level of comfort and aesthetic lightness.

Soft Edge 12 Matt Lacquered Solid Oak

Soft Edge

A photograph of a wooden bar stool in a laboratory or workshop. The stool has a light-colored, rounded seat and four tapered legs. A metal footrest is attached to the legs. It is positioned in front of a stainless steel workbench. On the workbench, there are several glass bottles and containers. The background shows a white wall and a tiled floor. The text "Soft Edge" is overlaid on the image.

Soft Edge

Soft Edge

Soft Edge 72 Stool Matt Lacquered Oak

“The idea of an ultimate sitting posture is absolutely dated. Dynamic comfort is the only comfort that is normal for our body. While we are sitting we are moving all the time, this is natural, it is extremely unnatural to be still.” – Boris Berlin

Neu Chair

The Neu Chair shell, combined with round solid wooden legs, creates a perfectly defined profile. The durable plastic together with the subtle rim detail gives the design structure and character. In the upholstered version a delicate stitching line runs across the seat, while a piping detail accentuates the rim for a robust and comfortable construction with flexible design options.

AAC Collection

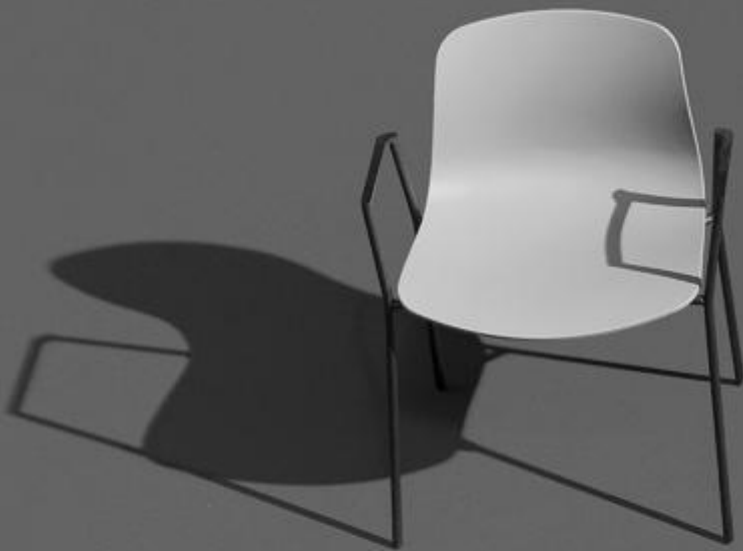

AAC Collection

The result of a long-term collaboration between HAY and designer Hee Welling, the About a Chair series is based around one simple, strong idea that then translates to the individual models within the collection.

The frame, shell and upholstery options provide a wealth of design possibilities while retaining the elemental form.

Uchiwa

Uchiwa

Uchiwa, designed by DoshiLevien, takes its name and soft, open shape from the traditional Japanese hand fan. Consisting of a moulded shell with a fitted seat, the innovative high-design lounge chair uses the piping detail to create a perfectly tailored seam binding the chair's two components. Creating a crafted, comfortable lounge chair with a generous and inviting look.

Mags

Mags

Designed for comfort with minimum details, the Mags Sofa ensures what lies beyond its strong aesthetic presence has an equally lasting impact. The distinctly lounge feel is reinforced by deep seats and high armrests for an open, welcoming space. The vast range of functional modular units makes the sofa fully customizable for any room, purpose or personality.

A bright yellow sofa is positioned in the lower right of the frame. Behind it is a large, plain white rectangular panel that covers most of the wall. To the left of the panel, a portion of a classical painting is visible, showing a figure in a blue and brown robe. To the right, another painting in a gold frame is partially visible. The floor is made of light-colored wooden planks.

Hackney

Hackney

Hackney

The Hackney Sofa strikes the perfect balance between modern and traditional styling. It features a fully upholstered foldable frame that can be disassembled into three sections and transported with ease. Its modest, technically accomplished design makes it ideal for environments with restricted access or where it might need frequent moving, while still looking great.

Palissade

Palissade

Palissade

Palissade is a series of outdoor furniture built from steel and designed to improve over time. Developed over two years and countless conversations between Ronan & Erwan Bouroullec and Rolf Hay, the collection is a measured balance between simplicity and comfort that is visually light yet reassuringly strong.

Palissade

Palissade Chair and Neu Table Round

"I think the weight is part of this fact that you trust a piece like this, you let it in your garden, outside for all the years, you do not care to treat it in a fragile way." – Ronan Bouroullec

New Order

New Order

New Order

New Order

The revolutionary New Order system takes shelving and versatility to new levels. Flexible in structure and composition, New Order can be modified, expanded and customized in endless variations to suit any environment, while remaining aesthetically simple, strong and pleasing.

New Order

New Order

New Order Army

“New Order sets new standards for shelving systems because the industrial manufacturing process has been incorporated into the product design from the outset. The functionality is exceptional, with doors that can be clicked on and off without the use of tools; and the aesthetic experience is equally convincing.” – Rolf Hay

FDB Collection

The FDB furniture series offers functional design born out of industrial development, while linking industrial production closely with architectural furniture design. The industrial approach eliminated the need for special components, as the underlying ideology of making well-designed furniture accessible to the general population was the primary focus.

Revolver

Revolver

A four-legged rotating bar stool, Revolver is positioned on a bearing mechanism that enables the seat and foot ring to rotate 360 degrees. A slightly dished seat features curved edges for added comfort while the footrest provides support together with the solid base for stability. Revolver is the ideal bar stool for socializing.
