DESIGNPREIS
2009

Plopp stool is an icon and a bestseller of Zieta Prozessdesign. The unique, toy-looking and playful shape of Plopp is an effect of an innovative forming method – FIDU.

Since its market release, Plopp stool has been shown on many exhibitions around the world and has won many prestigious awards – including Red Dot Design Award 2008, German Design Council Award 2009 and Forum AID Award 2009.

Please note: Raw lacquered steel version of the Plopp stool is designed to have an industrial look which allows some scratches, rust stains or indications of welding process on the metal surface underneath the lacquer.
