NEW . PRODUCTS . 2020

ABRA . CA . DABRA

Each product from Karup Design is actually two products. Or in some cases even three. Once you get to know our selection you will learn that 3 is our magic number. The Karup Design products may all be defined in just three words by their properties and functions.

Available from April

FOLK

HYGGE . UNHOOK . RELAX

Folk is a union of soft rounded edges and cool clean lines. The frame is crafted from solid FSC® certified pine wood and embodies the simplicity of Scandinavian design. The metal armrest is a contrast to the soft lines of the frame and makes the statement that Folk is much more than just a comfortable sofa. Folk sofa bed is not only a place to cozy up with friends but also a practical bed for small student apartments or guest-rooms. Functional yet elegant. With an easy move, the armrest unhooks and transforms the sofa into a bed for two. With our corduroy fabric collection, the Folk sofa will be the main eyecatcher of any room.

PEEK BED FRAME

READ . STORE . SLEEP

Peek is designed to serve two main purposes: To be a delightful bed and to provide more open space for your belongings. Our Peek bed is crafted from solid FSC® certified pine wood and features a beautiful and functional headboard. The frame is available in light wood or coated with black water-based lacquer. The broad frame allows you to easily store and charge your phone from your bedside and let your favorite books peek out from behind the headboard. Smart. Beautiful. Storage. Where the design takes its twist... The two holes in the headboard are meaningful holders for cozy lighting. Wrap the cables around and choose your favorite light bulbs. Peek is a combination of multiple functionalities - storage, nightstand and a space for a great night's sleep. The included bed lamps are made from rubber and plastic and has an EU plug. The fabric cord is 3 meters long. The lamps are intended for max. 4W LED E27 lightbulbs (Not included).

ZIGGY BED FRAME

BED . AND . STORAGE

Ziggy is designed with great attention to materials and functionality. The soft curved bed frame is crafted from solid FSC® certified pine wood and available in natural light wood color or coated with black water-based lacquer. The functionality of Ziggy is built right into the frame, by a total of six open storage compartments, that allows for more storage space in smaller apartments or homes. To store your favorite bedtime stories, the frame has a smart side 'pocket' system. Lounge. Read. Store. Furthermore, the broad frame surface allows you to easily charge your smart devices right by your bedside, replacing the bedside table. A tatami mat can be added to create a Japanese look to your bedroom.
