In the deepest of Småland, you are always close to the nature. Just like the craftsmanship and the love of all that is genuine. Here, Johanna Haglund's sense of shape and design was born. She searched for something she could not find anywhere else, and in the stylish straight-line design she found a design of timelessness. Combined with the solid steel, the result becomes sustainable and lasting. Furniture with quality that can last through generations. It is with pride Johanna takes the family heritage into the future, with production in the factory where forest and water meet.

A stylized, handwritten signature in black ink, likely belonging to Johanna Haglund. The signature is fluid and cursive, with a prominent initial 'J' and 'H'.

Johanna Haglund, founder and designer

## Domo Design x Sundling Kickén

---

### GREAT MINDS

With Domo Designs minimalistic and straight-line furniture, Johanna found a design that never gets old. Domo Design loves the interior stylist duo Sundling Kickén's sense of aesthetics that fits very well with the philosophy of the brand. To elevate the designs, Domo Design has chosen to collaborate with the duo.

Sundling Kickén find inspiration from the right visual relationships, disharmonizing balance and in combining texture and surface that feels unexpected. When Johanna's furniture meets Sundling Kickén's sense of color and shape, magic happens!

Besides our work with styling Domo Designs images for spring 2018 we have carefully selected two colors, galvanized and beige, which is a nice addition to Domo Designs current color palette. In our work we have been inspired by the factory and beautiful nature in Småland, where Johannas design had its beginning.

With the choice of galvanized, we wanted to get closer to the core, the original steel material, which underlies Johanna's very first idea of designing hardwearing and timeless furniture. The natural beige tone is a nice addition to the raw and cool in the galvanized and takes our thoughts to the earthy colors found in the forests of Småland.

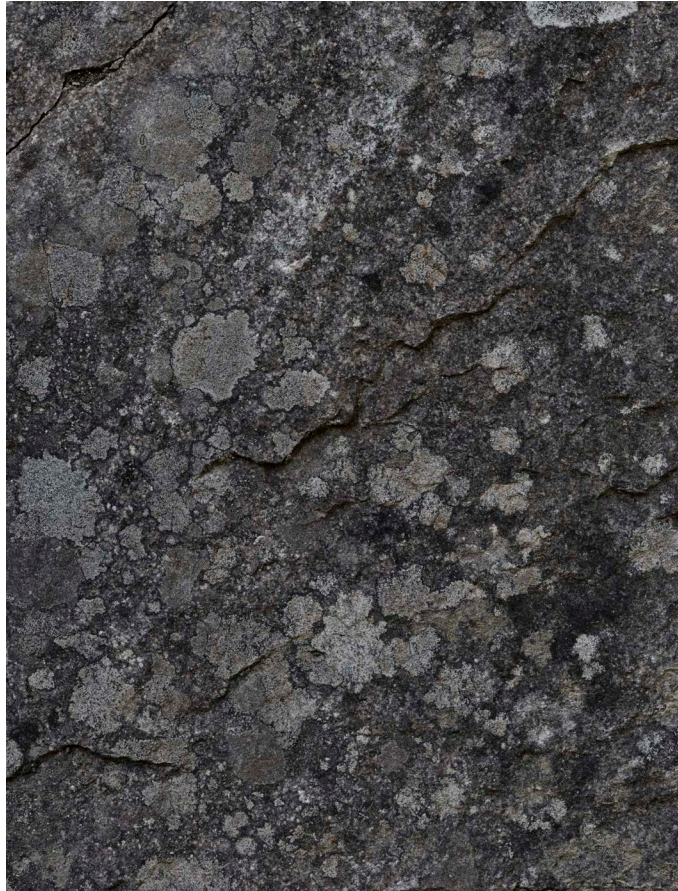

**Perfection | Timeless | Consciously**

## **A HEART OF STEEL FILLED WITH LOVE**

Steel, a fusion of iron and coal, a material we love at Domo Design. Quality and solid materials are important to us at Domo Design. The solid steel we use in our furniture is always carefully chosen. This way the furniture last through generations.

Steel is the world's most recycled material. Due to its sustainability, steel products have a long life time and can be recycled over and over again and used in other applications, that saves resources.

## COLOR AND MATERIAL GUIDE

Color: **Black, White, Grey** is our standard colours and they are powder coated. In DOMO TABLE, DOMO SEAT, DOMO STORAGE they are made of solid steel. In DOMO OUTDOOR they are made of stainless steel.

Color: **Beige** is a new color, from the "Domo Design x Sundling Kickén" collection where three products; DOMO STOOL, DOMO BENCH and DOMO SIDEBBOARD is made. All product are powder coated and made of stainless steel to work both indoor and outdoor

Color: **Galvanized** is a new color, from the "Domo Design x Sundling Kickén" collection. This color is available in the whole DOMO OUTDOOR collection. The galvanizing has a "self-healing" effect against rust and become more beautiful over time. We recommend using a seat pad for DOMO CHAIR, DOMO STOOL and DOMO BENCH to avoid stains on the clothes.

**Our furniture is tested according to European standards for furniture.**

## **TAKE CARE OF YOUR DOMO DESIGN**

The steel used in Domo Table, Domo Seat and Domo Storage is DIN 2395 grade. In Domo Outdoor, it is a stainless steel grade EN 1.4301.

All Domo Designs products require minimal maintenance, but during ordinary cleaning, we recommend the use of warm water and washing-up liquid or soap.

Never use brushes or sponges on the metal. These can transfer metal pieces to the product, which can lead to rust or scratches.

Powder coating: IGP-HWF Classic 591T Fine structure deep matt.

Domo Design is a piece of Swedish craftsmanship, originating in Småland, providing place to give every home a personal touch. The furniture is made completely from solid steel, is 100% welded and powder painted, and is available in various colours to suit every home – regardless of the style. Domo Design offers a tailor-made range of furniture with direct and stylish design for every room in your home. Smart storage, various tables and decorative furniture for the hall, bedroom, kitchen, living room and our outdoor collection developed for your terrace or balcony, quite simply the opportunity to give every room a conscious and timeless design.
