LIVING

HAY Living

HAY was founded with the ambition to create contemporary furniture and accessories that serve modern lifestyles using quality craftsmanship and industrial production. At HAY, we work to understand new ways of living. We think about what modern needs in the home and workplace are – then create products to meet them. We use good ideas, technical skill and the best materials in all we do. We combine the structural character of architecture with the dynamics of fashion in durable, quality products together with some of the world's most talented, curious and spirited designers.

ABOUT A CHAIR Collection

Chairs & Stools

Using expert craftsmanship and handpicked materials, HAY chairs and stools are comfortable, flexible and lasting designs. Created for dining rooms, offices, sitting rooms and public spaces, the collections span innovative, iconic designs from upcoming designers to reissues of enduring classics.
